

What to include in your COVID-19 risk assessment

Company name: Twyford St Mary's C of E Primary School

Assessment carried out by: Sophie Davies

Date assessment was carried out: June 2021

As an employer, you must protect people from harm. This includes taking reasonable steps to protect your workers and others from coronavirus. This is called a COVID-19 risk assessment and it will help you manage risk and protect people. You must:

- identify what work activity or situations might cause transmission of the virus
- think about who could be at risk
- decide how likely it is that someone could be exposed
- act to remove the activity or situation, or if this isn't possible, control the risk

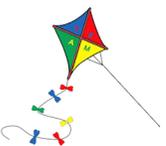

When completing your assessment make sure you talk to your workers and their representatives to explain the measures you are taking. They can also provide valuable information on how you could control the risks.

You can use this document to help you make sure you have covered what you need to keep workers and others safe. Once you have completed your risk assessment you will also have to monitor to make sure that what you have put in place is working as expected.

More information on working safely during the coronavirus outbreak.

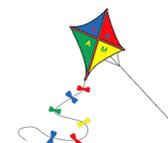

HSE's core guidance on managing risk.

In the UK some rules such as social distancing may be different in each of the devolved nations. However, HSE regulates in all of these countries. You should check the public health guidance for the country you are in: Wales England Scotland

Covid Risk Assessment June 2021

Increased risk of infection and complications for vulnerable workers	All staff Pupils	<ul style="list-style-type: none"> - Identify who in your work force fall into one of the following categories: <ul style="list-style-type: none"> ➢ Clinically extremely vulnerable ➢ People self-isolating ➢ People with symptoms of coronavirus -Encourage all to engage with the DFE test and trace in primary schools programme. 	<ul style="list-style-type: none"> - Systems in place so people know when to notify you that they fall into one of these categories, e.g. they start chemotherapy or are pregnant - Record and monitor test and trace programme 	SD/JQ	Pre Reopening to all pupils
Engaging with Asymptomatic staff testing	All staff	<ul style="list-style-type: none"> -Staff trained in the use of the rapid response (lateral Flow Devices) LFD tests -LFD tests provided to all staff who opt in to the asymptomatic testing programme. - LFD test results confidentially recorded in school -Staff aware of procedures if they receive a positive LFD test result. 	<ul style="list-style-type: none"> - Systems in place for notifying of test results and test collection - Record and monitor test and trace programme 	SD/JQ	Weekly monitoring
Response to any school based or community infection	All staff Pupils	<ul style="list-style-type: none"> -Engage with the NHS Test and Trace process. -Manage confirmed cases of coronavirus (COVID-19) amongst the school community. -Contain any outbreak by following local health protection team advice. -If anyone in the school becomes unwell with a new and persistent cough or a high temperature, or has a loss of or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow guidance for households with possible or confirmed coronavirus (COVID-19) infection -Other members of their household (including any siblings) should self-isolate for 10 days from the day after the individual tested positive. -HT to report infection to PHE and local authority - If person is in school, ensure those in close contact in the bubble of that individual isolates for 10 days. 	<ul style="list-style-type: none"> -Ensuring that pupils, staff and other adults do not come into the school if they have coronavirus (COVID-19) symptoms or have tested positive in at least the last 10 days and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19). -If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people. -If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else. -PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very 	SD/JQ/RC	Daily checks
